H. A. STUART,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 6th August 1908, based on the Indian Daily Weather Reports of the period.

There was a strong inflow of Arabian Sea winds into the United Provinces and the east and north Punjab on the 1st of the month, and rainfall in these areas was widespread on this and the following day, being especially heavy in the districts near the boundary between the United Provinces and the Punjab. A depression which formed over the head of the Bay on the 31st had crossed into Orissa on the 1st and, unlike its predecessors it was well defined. It took a course almost due west across the head of the Peninsula and thus brought the trough of low pressure much farther south than usual, with the result that the Arabian Sea monsoon was almost entirely confined to the Peninsula and general though not heavy rain fell in the central parts of the country and the Deccan. At the same time the Bay current extended over the greater part of northern India and as it was comparatively weak there was a partial break in the United Provinces, but rain continued to fall in the Punjab up to the morning of the 5th and extended into the North-West Frontier Province and Kashmir. On the 6th, however, skies were almost clear in upper India, and both currents were giving less than the usual quantity of rain throughout the country.

Burma.—Rain fell at all stations and was heaviest in Lower Burma. Skies were moderately to heavily overcast and temperature was normal.

Northeast India including Orissa.—There was fairly widespread rain on the 2nd, but during the rest of the week rainfall was more or less local in character and occurred chiefly in the southwestern districts. Skies were on most days only lightly clouded in Eastern Bengal and Assam, and moderately to heavily overcast elsewhere. Temperature was normal.

The United Provinces, Central India and the Central Provinces.—Rain fell in all parts of the division, but in the eastern districts of the United Provinces it was light. From the 2nd to the 5th skies were only lightly clouded in the United Provinces while in the rest of the division cloud was moderate to heavy. Temperature was normal or in defect, the deficiency being shown chiefly in day temperature in Berar and the east of the Central Provinces.

Northwest India.—Rain was reported from all parts except Sind and Baluchistan and was moderate to heavy in the western half of the Punjab from the 3rd to the 5th, while some heavy falls also occurred in the east Punjab, Rajputana and Gujarat. During the greater part of the week skies were clear or only lightly clouded in Sind and the adjacent districts to the north and east, and moderately to heavily overcast elsewhere. Up to the 2nd maximum temperature was considerably higher than usual in Kashmir, but in the rest of the division it was throughout the week either normal or in defect, and from the 4th it was in large defect in Kashmir as well : minimum temperature was nearly normal.

The Peninsula.—There was very little rain in the east coast districts but fairly widespread rainfall occurred over the remainder of the peninsula and some moderately heavy falls were registered in the Bombay Deccan and Hyderabad. Skies were moderately to heavily overcast, and temperature was normal or in defect, the deficiency being shown chiefly in the day time.

The following summarises the chief rainfall amounts of the week as reported at 8 hrs. each day :—

July 31st. Dibrugarh 2·70″, Jalpaiguri 4·55″, Cherat 1·50″ and Mount Abu 3·59″.

August 1st. Myitkyina 1·39″, Darjeeling 2·22″, Balasore 2·08″, Cuttack 2·97″, False Point 1·80″, Benares 1·07″, Lucknow 4·40″, Agra 2·84″, Mainpuri 1·57″, Dehra Dun 4·34″, Chakrata 6·36″, Muktesar 2·58″, Chanda 3·67″, Delhi 5·55″, Ambala 1·00″, Ludhiana 1·95″ and Murree 7·10″.

" 2nd. Tavoy 3·10″, Darjeeling 3·32″, Mainpuri 1·64″, Meerut 3·56″, Roorkee 6·49″, Chakrata 2·95″, Raipur 2·00″, Chanda 4·99″, Delhi 3·45″, Sirsa 2·20″, Ambala 5·20″, Ludhiana 1·54″, Kotah 2·20″, Belgaum 2·40″, Aurangabad 2·63″ and Hyderabad (Deccan) 0·97″.

" 3rd. Balasore 2·16″, Darjeeling 2·43″, Lahore 4·20″, Sialkot 2·62″, Belgaum 3·20″ and Aurangabad 1·69″.

" 4th. Lashio 2·25″, Jubbulpore 2·82″, Lahore 2·33″, Montgomery 2·78″ and Ahmedabad 2·12″.

" 5th. Port Blair 5·65″, Moulmein 5·87″, Toungoo 2·03″, Minbu 1·64″ Balasore 2·66″, Rawalpindi 5·80″, Murree 2·66″, Cherat 1·75″, Gulmarg 2·04″, Montgomery 5·86″, Veraval 3·95″ and Mangalore 7·46″.

" 6th. Silchar 2·02″, Benares 1·10″, Meerut 1·46″ and Ajmer 4·25″.

The rainfall of the past week was either nearly equal to or in excess of the average over by far the greater part of the country, the only areas in which it was in defect being Eastern Bengal and Assam, Bengal, Bihar, the east of the United Provinces and of Central India, Sind and Baluchistan. The most important change it has made in the seasonal departure from normal is that over the whole of the Punjab rainfall is now in large excess whereas a week ago it was normal or in only slight excess. The slight defect shown last week in south Hyderabad has disappeared.

DIVISION.	Rainfall data for week ending on 6th August 1908.			Rainfall data from 1st May 1908 to 6th August 1908.				
	Average actual rainfall in inches.	Average normal rainfall in inches.	Excess or defect in inches.	Average actual rainfall of season to date in inches.	Average normal rainfall in inches.	Excess or defect in inches.	Seasonal percentage departure from normal. This week.	Seasonal percentage departure from normal. Last week.

J. PATTERSON,
for Offg. Director-General of Observatories.

R. W. CARLYLE,
Secretary to the Government of India.

SIMLA,
The 6th August 1908.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 1st August 1908.

Burma.—In Lower Burma the rainfall has been heavy and seasonable. In Upper Burma although light showers have been fairly general, more rain is wanted in several dry zone districts. In Lower Burma ploughing for the winter rice crop is almost completed and areas planted out are looking well. In Upper Burma sowing of autumn crops is approaching completion and ploughing for winter crops has commenced in places. Owing to drought large areas under early sesamum will probably not mature and the preparation of nurseries for winter rice is delayed. Price of rice, husked and unhusked, has risen in one district but elsewhere it is practically stationary.

Eastern Bengal and Assam.—There was moderate rain in Jalpaiguri, Sibsagar, parts of Backarganj, Sylhet, the Lushai Hills and Lakhimpur; elsewhere the fall was generally very light. The cultivation of transplanted winter rice is being seriously retarded in most districts for want of sufficient rain. Harvesting of summer rice, cultivation of winter rice and cutting of jute are in progress. Prospects of standing crops are good in most districts in the Dacca and the Assam valley divisions, in Noakhali, Bogra, Malda, Cachar and the Garo Hills; in other places prospects are fair. Plucking and manufacture of tea continue. Prospects of tea are good except in Sylhet where it is fair. Cattle disease is prevalent in Backarganj, Noakhali, Malda, the Khasi Hills, Goalpara, Darrang and Sibsagar. Prices:—common rice has risen in nine stations but it has fallen in nineteen.

Bengal.—Rain was general all over the Province; the fall was heavy in Darjeeling and also in Balasore, Sambalpur and Cooch Behar; it was light in all other parts of the Province, Bihar excepted, where the fall was scanty. In Bihar more rain is urgently wanted for the proper growth of the standing autumn crops and for the transplantation of winter paddy. The condition of jute is fair except in Howrah, the 24-Parganas, Jessore and Khulna. Paddy seedlings are suffering for want of sufficient rain in Patna, Gaya and Saran. Damage to paddy by insect-pests is reported from the 24-Parganas. Sugarcane is doing well. The price of common rice has risen in the 24-Parganas, Gaya, Darbhanga, Purnea and Palamau; it has fallen in Bankura, Jessore, the Sonthal Parganas, Puri and Sambalpur and has been stationary in the remaining districts. Stocks of food-grains are insufficient in Nadia, Murshidabad, Balasore and Palamau. The supply of fodder and water is sufficient for the Province. Cattle-disease is prevalent in Jessore, Gaya, Saran, Purnea, the Sonthal Parganas, Sambalpur, Hazaribagh, Palamau and Manbhum. The number of persons on gratuitous relief was 30,709, of whom 15,352 were in Orissa. The test-works in Nadia, Jessore, Cuttack, Balasore, Angul, Puri, Hazaribagh and Ranchi were attended by 9,114 persons. The number of persons on famine relief works in Ranchi was 10,737.

The weekly report on the famine and scarcity is as follows:—Ranchi district—In the declared area, workers exclusive of dependants, 11,665; on gratuitous relief:—(*a*) dependants of workers 14; (*b*) in poor-houses or kitchens *nil* and (*c*) on village doles 4,725; total on gratuitous relief 4,739; grand total on relief 16,404. The considerable rise in numbers is due to the deepening of distress, the partial cessation of field work and finer weather. The situation will be relieved in a fortnight when the *gundli* crop comes in; meanwhile arrangements are adequate and are working well. The physical condition of the people is improving all round. Cholera is reported from one work in Bishnupur; it is also prevalent in Gumla, Kolebera, and in Ranchi and the neighbourhood. A good deal of fever and small-pox is prevalent. *Gundli* promises a bumper crop in Kurdeg and Kochdega but it is badly damaged by disease in Gumla, Ghagra and some other less affected thanas. Other crops promise well. Sufficient arrangements have been made for food-supplies everywhere and prices have kept steadier than was anticipated. Prices 5 to 6 seers per rupee.

United Provinces.—The rainfall during the week exceeded 1 inch in all except five eastern districts. It was heavy throughout Kumaon, Rohilkhand, Meerut, Agra and Bundelkhand exceeding 16 inches in Dehra Dun; 11 in Garhwal; 6 in Almora, Naini Tal and Pilibhit; and 5 in Muttra and Shahjehanpur. Autumn sowings are completed in many districts; in others sowings of later crops and transplantation of *jarhan* rice continue. More rain is needed in the Benares and Gorakhpur divisions and some eastern districts of Oudh for transplantation of *jarhan* rice which has been retarded in several districts. Early rice also is beginning to suffer in a few places. Generally germination is good and standing crops are doing well. Weeding of early autumn crops and ploughing for spring crops are in progress. A break in the rains is required in most of Bundelkhand. Prices remain stationary and are very high. The condition of agricultural stock is satisfactory and improving. Fodder and water are everywhere available.

The weekly report on the famine and scarcity is as follows:—There has been a decrease of 36,000 in the numbers on relief. The number of workers has decreased by nearly 40,000 and more works are being closed. The numbers on gratuitous relief have increased by nearly 4,000, a decrease in most districts being counterbalanced by a considerable rise in Kheri and Gonda. The numbers on gratuitous relief are under reduction in Bahraich and several other famine districts; and in the Agra division gratuitous relief will be closed with a month's valedictory dole on the 15th August. The condition of the people is good. Small-pox and cholera have much abated. The free

distribution of quinine in all distressed districts continues. There are 2,256 persons on private works. The numbers on Government relief are :—on relief works 82,849; on aided works 12,156; dependants 106; in poor-houses 2,204; on gratuitous relief 552,252; total 649,567. The largest total figures are :—Bahraich 165,084: Kheri 98,605; Mirzapur, with Family Domains, 81,643; Gonda 63,666; Sitapur 46,516 and Banda 31,996. Prices :—Garhwal 5; Almora 7; Chakrata 8; Mirzapur 5 to 10; Kheri 9; Benares 9½; Jalaun 9¾; Hamirpur and Banda 9 5/16. Elsewhere 10 to 13¼ seers per rupee.

Punjab.—The rainfall was good throughout the Province. The price of wheat is falling in Rohtak and Ambala and rising in Gurgaon, Ludhiana, Amritsar and Rawalpindi. Wheat is selling between warning and scarcity rates in Gurgaon, Delhi, Lahore, Gujranwala, Rawalpindi, Mianwali, Lyallpur and Multan; at scarcity rates in Ferozepore, Sialkot, Shahpur and Jhang and above scarcity rates in other districts. Prices of other food-grains are generally at or above scarcity rates. Sowings of autumn crops are in progress throughout the Province. Standing crops are in good condition except in Rawalpindi and Multan where they are average. Cattle are generally in good condition. Fodder is insufficient in parts of Ambala and in the Indus Valley and in the Mianwali district owing to heavy floods. There are no complaints regarding the water-supply.

North-West Frontier Province.—Slight to heavy rain fell throughout the Province during the week benefiting standing crops and facilitating autumn sowings. More rain, however, is required except in Hazara. Harvesting of extra spring crops still continues in Bannu and the outturn is average both on irrigated and unirrigated areas. Autumn sowings are in progress in Peshawar and Bannu. Fodder is procurable and water sufficient even in the Swabi tahsil of the Peshawar district which has had 3·12 inches of rain. Irrigation from all canals in the Province is ample. The health of the people is good. The condition of cattle also is good except in some villages of the Marwat tahsil of the Bannu district. Prices are nearly stationary. Prices :—wheat 9 11/16 to 23¾; maize 11 1/16 to 17; gram 9 13/16 to 13; and *bajra* 12½ seers per rupee.

Jammu.—The rain during the week was good. Prices are fluctuating. Wheat sells from 9 to 14 and maize from 8 to 18 seers per rupee. The condition of standing crops is good. Fodder is still insufficient in certain tahsils of the Province. Sowing of autumn crops is nearly over.

Kashmir.—The weather is bright with some rain which did good to autumn crops. The general condition of crops is average. Prices are almost stationary.

Rajputana.—There has been general rain throughout Rajputana varying from 60 cents at Tonk to 8·42 inches at Bharatpur. Sowings have been retarded by continuous rain in Bharatpur, where there has also been some damage to crops on low lands from excessive falls. Similar damage has also occurred in Mewar and in a lesser degree in Kishangarh. On the whole, however, prospects are favourable. The condition of cattle is good. Fodder is sufficient. Prices have fallen by 2¼ and one seer in Ajmer and Merwara respectively and show a tendency to fall in most States. The numbers on special public works in the eastern States are 1,337, being a decrease of 611 on last week's figures.

Central India.—The rainfall during the week was general. Sowings are in progress in Baghelkhand and parts of Gwalior and Bhopal and weeding is in progress elsewhere. Damage to standing crops is reported from parts of Gwalior and Bhopawar owing to excessive rain. Agricultural stock is fair to good. Cattle-disease is reported in parts of Indore, Bundelkhand and Bhopawar. Fodder is sufficient throughout. Prices have fallen slightly in Ratlam and are high but steady elsewhere.

The weekly report on the famine and scarcity is as follows :—Relief works and gratuitous relief are being closed in nearly all States of Bundelkhand. Prices :—Bundelkhand Agency 8 to 9½; Indore 9½ and Bhopawar Agency 8 to 12 seers per rupee. The numbers on relief are :—Rewa—on works 8,000; on gratuitous relief 1,000. In the rest of Baghelkhand—on works 250; on gratuitous relief 250. In the Bundelkhand Agency—on works 2,000; on gratuitous relief 2,000. In Indore State—on works 250; on gratuitous relief 29,000. In the Bhopawar Agency, Manpur—on works 78. Figures for Jhabua and Gwalior Residency area have not been received.

Central Provinces.—Rain fell all over the Provinces during the week. The principal falls in inches were :—Chanda 12; Buldana 10; Yeotmal, Jubbulpore and Bhandara 7 and Betul, Nagpur and Drug 6. In the remaining districts the rainfall ranged from 5 inches in Akola to 1½ inches in Damoh. Sowings of autumn crops still continue in Saugor, Damoh, Mandla, Betul, Nimar and Nagpur; elsewhere they are practically completed. Weeding operations were in progress throughout the Provinces though they were somewhat retarded by rain in Saugor, Jubbulpore, Seoni, Narsinghpur and Hoshangabad. Transplantation of rice continues in Mandla, Seoni and the districts of the Nagpur country. Thinning operations continue in Chhattisgarh, except on black soil in Betul. The germination was good everywhere. Excessive moisture in Damoh, Wardha, Chanda and Yeotmal is likely to cause damage to crops on low-lying lands. Slight damage by insects to rice seedlings is apprehended in the Bhandara tahsil. Fodder and water are sufficient. Cattle are generally in good condition. Prices :—wheat was sold cheaper by ¼ to ½ seer per rupee in Saugor, Damoh and Betul and dearer by 1 seer in Seoni. Gram rose by 1 seer in Seoni. Rice fell by ¼ to ½ seer in Raipur, Bilaspur and Buldana and rose by ¼ to 1 seer in Jubbulpore and Yeotmal. *Juar* rose by ½ seer in Nimar and fell by ½ seer in Wardha and Buldana.

Feudatory States.—Korea and Sirguja received the heaviest falls, *viz.*, 9 and 8 inches respectively. Chhuikhadan registered the lightest fall of 63 cents; elsewhere the rainfall measured from 2 to 6 inches. Sowings of autumn crops are approaching completion. Thinning operations are in progress in Raj-Nandgaon, Sakti and Sirguja and weeding

continues. Fodder and water are sufficient. Prices :—wheat and rice fell by ½ seer and 2 seers per rupee respectively in Sakti; elsewhere no variations in prices are reported.

The weekly report on the famine and scarcity is as follows :—The rainfall during the week was general and continuous and in most districts a break is much needed. Standing crops are in good condition but in Damoh slight damage to *juar* and *til* by continuous rain is reported. Village works continue in Damoh only. The numbers on contract works are still falling but the numbers employed on the Itarsi Nagpur railway in Betul continue to increase. The number on village gratuitous relief has expanded and an extension of this form of relief to the Sakoli tahsil in the Bhandara district has also been sanctioned. Relief to weavers has been sanctioned in Chanda and Ellichpur but no figures have been reported yet. The increase in relief is due to further extension of relief operations in Nagpur. Fodder and water are sufficient. Mortality among weaker cattle is still reported from Saugor, Mandla and Seoni but the condition of cattle is improving. Prices are steady. Relief measures are adequate. The public health is good. The numbers on relief are :—on works 1,207; weavers on relief 14,904; on gratuitous relief 30,296; total 46,407.

Bombay.—Good rain fell during the week in parts of Karachi, Hyderabad, Thar and Parkar, Gujarat, the Konkan, Khandesh, Nasik, Poona, Satara, Belgaum, Dharwar, and Gujarat Native States and slight rain in parts of Sukkur, Larkana, the Upper Sind Frontier, Ahmednagar, Sholapur and Bijapur. The rain was insufficient in the eastern portions of the Deccan and the Karnatak and sufficient elsewhere. Continuous rain is retarding autumn sowings in parts of the Panch Mahals, Broach, West Khandesh and Palanpur. Sowing is retarded in parts of Bijapur and the Deccan for want of sufficient rain and continues elsewhere. Germinated seedlings have been slightly damaged by rats in parts of Karachi and by caterpillars in parts of Bijapur and are suffering on account of floods or excessive rain in parts of Hyderabad, the Panch Mahals, Kaira, Surat, Kanara, Baroda, Cutch and Palanpur and from want of moisture in parts of East Deccan and Bijapur. Seedlings are in good condition elsewhere. Transplantation is progressing in parts of Larkana, the Upper Sind Frontier, Gujarat, the Konkan, Nasik, Poona, Belgaum, Baroda and Rewa Kantha. The supply of fodder is adequate except in parts of the Deccan and Bijapur. Agricultural stock is generally in good condition and sufficient except in parts of Karachi, the Deccan and Cutch. The supply of drinking water is sufficient except in parts of Ahmednagar, Poona, Sholapur and Bijapur. Water for irrigation is insufficient in parts of the Upper Sind Frontier, Ahmednagar, Poona, Sholapur and Bijapur. Prices of food grains have fallen slightly in Sind and the Deccan and are almost stationary elsewhere. The quantity purchasable per rupee is in Sind 32 to 45 per cent; in Gujarat 35 to 74 per cent; in the Konkan 27 to 35 per cent; in the Deccan 29 to 52 per cent, and in the Karnatak 32 to 50 per cent less than the normal. Stocks of grain are generally adequate. Labourers get sufficient field employment and wages are normal. The cultivating and labouring classes are in fair condition. The daily average numbers on gratuitous relief are :—Panch Mahals—820; West Khandesh 1,280; Nasik 1,585; Ahmednagar 1,619; Poona 155; Sholapur 1,489; Bijapur 718 and Jath 70.

Hyderabad.—The rainfall during the week was 2 inches 71 cents It was generally good. Early rice sowings continue. Lands are being prepared in parts for spring sowings. There is water scarcity in twelve talukas and fodder scarcity in thirty-two. Cattle-disease prevails in eighteen talukas. Prices :—wheat 5¼; coarse rice 5¾ and *juar* 11¾ seers per rupee. White *juar* is selling in Hyderabad City at 11 seers per rupee. Yellow *juar* is not available in the market. The highest price in districts is 8¾ seers in the Lingsugur, Pargi and Paloncha talukas.

Mysore.—The rainfall was good in Bangalore, Hassan, Kadur, Shimoga and Chitaldroog and slight elsewhere. Prices of food-grains are steady. Sowing operations are in progress. Standing crops are in good condition. Prospects of the season are good but more rain is needed in parts of Kolar, Tumkur and Mysore. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 12 inches 91 cents. Transplanting of rice continues. Prices of food-grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was abnormally heavy in South Canara and Malabar; heavy in the Vizagapatam littoral, Ganjam, Guntur and Kurnool and light to fair elsewhere. Irrigation supplies are insufficient in parts of all districts except Malabar, South Canara and the Nilgiris. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair, but some have been damaged by insects in parts of Bellary; by floods in parts of South Canara and some in parts of Salem, Coimbatore, Madura and Tinnevelly are withering or require more rain. Harvests continue, except in the Circars, Bellary, Anantapur, Nellore, Chingleput, Tanjore, Malabar and South Canara, with outturn generally fair. Pasture is sufficient except in parts of Vizagapatam, Guntur, Bellary, Cuddapah, Nellore, South Arcot and the central and southern districts. Fodder is scanty in parts of the Circars, Bellary, Trichinopoly and Tanjore. The condition of cattle is generally good. The price of rice is stationary in fifteen districts; has fallen in two and has risen in six. The price of millets have fluctuated as follows :—*Ragi* is stationary in twelve districts; has fallen in three and has risen in six. *Cholam* is stationary in seven districts; has fallen in two and has risen in five. *Cumbu* is stationary in six districts; has fallen in two and has risen in six. The public health is generally good but cholera is prevalent in several districts, Malabar and Kistna being most affected. Prospects are generally fair. The condition of the labouring classes is good and employment is procurable. Grain stocks are generally sufficient. The daily average number relieved on test-works in the Bellary taluk is 872. Arrangements are being made to erect one poor-house.

The weekly report on the famine and scarcity is as follows:—The distress in Ganjam is decreasing owing to the rains. Employment is available for the affected people. There is not much wandering and no general emaciation. The condition of the people on relief is generally good. Relief measures are sufficient. The public health is generally good. State loans are being granted for the construction of wells and purchase of fodder or seed grain. Seed grain purchased from famine charitable relief funds are being distributed free to distressed zemindari ryots of the Ganjam taluk. Price of food-grains 8·5 seers per rupee. The daily average numbers on relief are:—Khonds on village works 26; on gratuitous 247; total 273.

Nepal.—Report for the quarter ending 15th July 1908. The rainfall for the period was 22·22 against 18·96 for the corresponding period of last year.

April.—Early rice, pepper and Indian-corn were sown, and the second crop of potatoes was harvested. The outturn was good.

May.—Wheat and barley were harvested in the hills and valleys. The outturn was normal.

June.—Plums and peaches began to ripen and the transplanting of rice was commenced. Millet was sown in the hills.

July.—Plums and peaches were gathered in, the harvest being good. Pears and apples have commenced to ripen. The standing crop of *maize* (Indian-corn) is in a flourishing condition and a good harvest is expected. The transplanting of rice, which was a little delayed this year on account of want of rain, has been completed.

It was expected, owing to the want of rain, that the price of food stuffs would rise, but fortunately rain fell in good time to avert this.

The market is well stocked and the price of food-grains continues to be normal.

The rainfall continues to be satisfactory.

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

FAMINE.

Statement showing the number of persons on relief works and in receipt of gratuitous relief in the Districts and Native States affected by famine or scarcity in India—(District details).

NOTE.—The figures are compiled from returns obtained from Local Governments and Political Officers, and give the corrected details of the totals reported in the telegraphic famine reports published weekly in the Supplement to the *Gazette of India*.

Non-labouring children and other dependants of relief workers are classed under relief works when distinguished in the local returns from persons gratuitously relieved in poor-houses or at their houses. Weavers relieved in their own trade are shown under "village doles or other relief."

(a) From 15th July 1907.
(b) Opened from 1st July 1908.
(c) Opened from 4th February 1908.

Simla, the 6th August 1908.

M. S. O'CONNOR,
for Secretary, Railway Board.

Printed and published for the GOVERNMENT OF INDIA *at the* GOVERNMENT CENTRAL PRINTING OFFICE, *Simla.*

SUPPLEMENT TO

The Gazette of India.

No. 33.} CALCUTTA, SATURDAY, AUGUST 15, 1908.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The* SUPPLEMENT *and* PART VI *of the* GAZETTE *can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.*

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

H. A. STUART,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 13th August 1908, based on the Indian Daily Weather Reports of the period.

A depression began to form in the north of the Bay on the 11th and by the morning of the 13th its centre had moved close to Saugor Island but though concentrated it was of only slight intensity and except for general and light to moderately heavy rain on the Orissa coast and over the Sunderbuns it did not affect the rainfall appreciably. The rainfall during the week thus occurred without the aid of depressions and was again well distributed over the country, the most noteworthy features of the distribution were the heavy rain that occurred in southeast Rajputana on the 11th, and the extension of heavy rain into the south of the North-West Frontier Province on the 12th and into the extreme northeast of the United Provinces on the 13th. Sind and parts of the Madras Deccan and the southeast of Madras were the only areas that did not receive any rainfall of importance.

Burma.—Rainfall was nearly general over the whole province on the 11th and 12th but on the remaining days of the week it was nearly general only in Lower Burma, while in Upper Burma it was local. Skies were moderately to heavily overcast and temperature was normal.

Northeast India, including Orissa.—Rain was fairly widespread up to the 11th except in Bihar, but on the 12th rainfall decreased and on that day and the 13th was confined to Assam and the coast districts. Cloud was moderate to heavy and temperature differed by only small amounts from the normal.

The United Provinces, Central India and the Central Provinces.—Rain fell in all parts of the division, but on most days of the week weather was dry in the northeast of the United Provinces: on the 13th however Gorakhpur reported a heavy fall. Skies were lightly to moderately clouded in the United Provinces and were moderately to heavily overcast elsewhere. Temperature was normal or in defect.

Northwest India.—Weather was almost dry in Sind and Cutch, but all other parts of northwest India received rain. Skies were clear or only lightly clouded during the greater part of the week in Kashmir and the upper Indus Valley: elsewhere cloud was moderate to heavy. Temperature was normal or in defect, the deficiency being shown chiefly in the day time.

The Peninsula.—Rain decreased considerably on the west coast, but it was nearly general in Hyderabad on the 7th and 8th and on the north Madras coast on the 11th and 12th. Skies were generally moderately to heavily clouded and temperature was approximately normal.

The following summarises the chief rainfall amounts of the week as reported at 8 hrs. each day:—

August 7th. Silchar 2·53″, Cherrapoonjee 3·71″, Darbhanga 1·47″, Mainpuri 1·37″, Meerut 2·37″, Chakrata 2·71″, Raipur 1·79″, Delhi 1·80″, Mount Abu 3·66″, Mangalore 3·79″, Raichur 1·44″, Madras 1·40″, Nellore 2·04″ and Gopalpur 1·16″.

" 8th. Akyab 5·34″, Cuttack 1·64″, Chaibassa 1·60″, Allahabad 1·28″, Sutna 1·48″, Raipur 1·39″, Simla 2·05″, Lahore 3·05″, Jodhpur 4·61″, Mount Abu 5·66″, Deesa 1·35″ and Ahmedabad 1·92″.

August 9th. Silchar 1·83″, Tezpur 1·55″ and Cuddalore 1·30″.

" 10th. Gauhati 1·57″, Shillong 2·20″, Sambalpur 3·27″ and Rawalpindi 1·97″.

" 11th. Mergui 3·28″, Moulmein 3·96″, Myitkyina 1·82″, Allahabad 1·59″, Jhansi 1·48″, Neemuch 3·27″, Hoshangabad 1·57″, Nagpur 1·33″, Chanda 2·14″, Ludhiana 1·10″, Kotah 5·85″, Udaipur 2·17″, Ahmedabad 1·91″, Nizamabad 1·45″, Negapatam 1·23″, Kodaikanal 1·70″, Cocanada 1·62″ and Vizagapatam 0·94″.

" 12th. Toungoo 2·44″, Bhamo 2·57″, Mainpuri 1·57″, Chanda 1·85″, Simla 1·49″, Lahore 2·35″, Multan 1·30″, Dehra Ismail Khan 3·02″, Ajmer 1·43″ and Hanumkonda 1·52″.

" 13th. Myitkyina 2·92″, Saugor Island 4·45″, Cuttack 2·83″, Gorakhpur 4·53″, Lucknow 2·02″ and Mount Abu 2·83″.

The rainfall of the past week was in defect over the greater part of northeast India and of the Bombay Presidency, but was in large excess in the North-West Frontier Province and Rajputana, in the former of which areas it has caused the disappearance of the large defect in seasonal rainfall shown at the close of the previous week, while in the latter the already existing excess has been largely increased. Bihar, the east of the United Provinces, the Madras Deccan and the north Madras coast are the only parts of the country where the monsoon rainfall is in important defect.

J. PATTERSON,
for Offg. Director-General of Observatories.

R. W. CARLYLE,
Secretary to the Government of India.

SIMLA,
The 13th August 1908.

No. 3132-S., dated 7th August 1908.

Summary of the rainfall conditions of India during June and July 1908, with a forecast for August and September.

Weather in India during June and July.

1. *June.—General statement of the meteorological features.*

Over the land area of India weather was considerably drier than usual during the month owing to delay in the arrival of the monsoon in its Arabian Sea branch, and to its failure as a whole to penetrate well into the interior. As judged by rain-giving capacity the Arabian Sea current was considerably less vigorous than usual, and the Bay current was on the whole weak.

The rainfall of the month averaged over the country was as much as 17 per cent. below normal, while the corresponding defects in 1907 and 1906 were 7 and 3 per cent.

---

2. *Detailed account of the meteorological features.*

(*a*) The establishment of the monsoon rains over the greater part of India was retarded as much as in the two previous years. The Arabian Sea current was more than a week late in its appearance on the west coast, and failed to extend inland in the usual manner. Indeed, at the end of the month the rains were still being awaited even in Gujarat, Rajputana and Central India, regions where settled monsoon conditions are due on the 15th.

(*b*) The Bay current arrived at about the normal date, but was almost restricted in its activity to northeast India. This was owing chiefly to the weakness of the Arabian Sea current which ordinarily feeds into Bay disturbances and induces them to take a track across northern India in some westerly direction, but failed to do so during the period of rainfall between the 18th and the 22nd.

(*c*) As happened last year, the advance of the monsoon current over the Indian seas was accompanied by the formation of storms in the Arabian Sea and the Bay of Bengal. Very little information is available regarding the Arabian Sea disturbance, but it appears to have originated off the Kathiawar and Konkan coasts, crossed into Gujarat on the 17th in a very inconspicuous form, and thence travelled through Rajputana to the foot of the hills in the United Provinces. Although little marked by the barometer it was the cause of rainfall, fairly general and in places heavy, in Gujarat, Rajputana and the west of the United Provinces.

The storm in the Bay formed close to the Sandheads on the 16th and 17th and drifted slowly in a northerly direction during the next four days, disappearing on the 22nd. In common with other slow-moving storms, it tended to concentrate rainfall over the small area directly affected by it and it was particularly noteworthy for the heavy rain it occasioned in Calcutta: a total of 18·10 inches was recorded at that place between 8 hrs. of the 17th and the same hour of the 19th.

On the average only one storm in four follows such a northerly course in June, and the abnormal trajectory in the present instance was undoubtedly related with the failure of the Arabian Sea current to feed into it.

(*d*) There immediately followed another storm. It appeared over southwest Bengal on the 23rd and, advancing through the east of the Central Provinces and of Central India, became merged on the 26th in the trough of low pressure which stretches at this time of year from the Punjab to Bengal along the Gangetic plain. The disturbance itself was of slight intensity, but it introduced the monsoon into the Central Provinces, rain falling steadily there until the end of the month.

(*e*) Towards the close of the month there was a marked falling off in the rainfall given by the Bay monsoon, while the Arabian Sea current showed signs of strengthening. On the 30th a fresh depression was in process of formation over the northwest of the Bay, and the Arabian Sea current was beginning to be drawn into it across the Deccan.

(*f*) Owing partly to delay in the establishment of the monsoon currents on the west coast of India, but chiefly to their failure to extend fully inland, the rainfall of the month was below normal over nearly the whole of the country: the only exceptional areas were Burma and Bengal which received 3 and 14 per cent. more than their respective normal amounts. The deficiency over the remainder of India was greatest in actual amount in Central India and Bombay, and relatively to the normal in Sind which was rainless throughout the month.

---

3. *July.—General statement of the meteorological features.*

Strongly marked monsoon conditions prevailed during the greater part of the month over a large part of the country, and the only areas where the month's rainfall was in considerable defect were Upper Burma, Bihar, United Provinces East, North-West Frontier Province and Kashmir, and Madras excluding Malabar.

As judged by rain-producing capacity the Arabian Sea current was much more vigorous than the Bay current.

The month's rainfall, averaged over the whole country, was 16 per cent. above normal, this being the largest excess on record in July since 1894

---

4. *Detailed account of the meteorological features.*

(*a*) The first eight days of the month were characterized by the establishment of the monsoon in the Punjab, Rajputana, Gujarat, Central India and the United Provinces West; while in the United Provinces East, the establishment was further delayed.

(*b*) The month was singularly free from cyclonic storms and it was chiefly owing to this fact that the rainfall was so well distributed. A few depressions, it is true, formed over the head of the Bay and drifted across northern India, but they were not intense enough to produce a marked concentration of rainfall.

(*c*) A very remarkable feature of the meteorological conditions of the month was the frequent occurrence of rain in Baluchistan, lower Sind, Gujarat and Rajputana, owing in part to depressions, either locally formed or transmitted from the east, and in part to the southerly displacement of the quasi-permanent area of low pressure in northwest India. Rainfall was exceptionally heavy at Hyderabad, Mount Abu and Deesa. At Hyderabad a total of 15·81 inches fell during the month, two-thirds of this large quantity falling in the course of the 48 hours between the 8th and the 10th, and doing much damage. The normal rainfall for the whole year at Hyderabad does not exceed 7 inches in amount.

(*d*) Another noteworthy feature of the distribution of rainfall was the persistence with which both currents failed to give adequate rain in the east of the United Provinces and Bihar and the west of upper India, although the intervening region had almost continuous rain.

(*e*) The rainfall of the month was unusually abundant and favourably distributed over the greater part of the country. Thus the total rainfall was either normal or above it in all provinces with the exception of the North-West Frontier Province. The excess was more than 35 per cent. in Bombay, Central India and over the larger part of north-western India, and was greatest in Sind, which

received three times as much as its normal rainfall; Rajputana also recorded a large rainfall reaching 80 per cent. above normal.

(*f*) The excessive rainfall occurred mainly in the area provided by the Arabian Sea current, the precipitation being practically normal in amount in the region served by the current from the Bay.

5. The following table shews the normal and actual dates of establishment of the rains in the several parts of India:—

Area.	Actual date of establishment of rains.	Normal date of establishment of rains.
Bengal	June 17th	June 15th.
Bihar	„ 20th	„ 15th.
Chota Nagpur	„ 20th	„ 15th.
United Provinces, East	July 14th	„ 16th.
United Provinces, West	„ 1st	„ 25th.
East Punjab	„ 8th	„ 30th.
Rajputana	„ 7th	„ 15th.
Gujarat	„ 5th	„ 15th.
Central India	„ 6th	„ 15th.
Central Provinces	June 25th	„ 10th.
Konkan	„ 13th	„ 5th.
Malabar	„ 11th	„ 3rd.

6. The following tables give for June, July, and for the total period the actual rainfall, the departure from normal and the percentage departure from normal for the chief political divisions and sub-divisions :—

FORECAST FOR AUGUST AND SEPTEMBER 1908.

7. *Conditions affecting the rainfall of India.*

Data were published in the memorandum of the 9th June: the information given below has since been obtained.

Australia.—Pressure exceeded the normal by ·002″ in June and ·003″ in July. Temperature was 3° below the average throughout the period.

The Indian Ocean—Mauritius.—Mean pressure differed little from the normal, having been in excess by only ·01″ in June and by ·001″ in July. It tended, however, to become low during the last week of July. Winds were on the whole stronger than usual and their direction was approximately normal. Rainfall was well above the average in both months.

Zanzibar.—Pressure was in very slight defect in both June and July. The air movement was of the usual character. Weather was unusually rainy, the total precipitation being 105 per cent. above normal in June and 58 per cent. in excess in July.

Seychelles.—Pressure was almost normal. Winds were of the average strength, although more easterly than usual. Rainfall was 15 per cent. below the average in June and 5 per cent. in excess in July.

Logs of vessels.—The more striking abnormal features of the air movement over the Indian seas and the equatorial region in June were:—

(*a*) The monsoon currents arrived somewhat later than usual in the Arabian Sea.

(*b*) No regular storms were formed over the Bay during July.

(*c*) Light variable airs or calms prevailed over the eastern half of the equatorial belt between the parallels of 4° S. and 4° N. during the second-half of June. This is an indication that the flow of the humid air into the Bay from the south was of less volume than usual.

Little or no marine information is at present available for July.

North-East Africa.—The African monsoon conditions which were unfavourable at the beginning of June have since improved, and the river levels are now more nearly normal.

South America.—Only partial information has been received: it indicates that pressure is now in excess.

Snowfall in the mountain regions to the north and west of India.—

(*a*) No snow fell during the period in the Afghan mountains.

(*b*) There were occasional snowstorms on the higher hills in Kashmir, but the total fall was below the average. No snow fell in Ladak, and the weather there was in consequence unusually warm.

(*c*) In the interior of the Simla district slight falls occurred during June down to about 10,500 feet. At the end of the month all the well-known passes near Kilba were free from snow. The report for July has not yet been received.

(*d*) Snow to a total depth of 21 inches fell during June on the Sach Pass. All the high peaks in Chamba were bare of snow towards the end of July.

(*e*) In June heavy snow fell on two days in Garhwal down to a level of about 10,000 feet, while several falls occurred in Almora: in the latter region, however, the total fall was not excessive in amount.

The available information thus indicates that during the past two months no snow fell in the Afghan mountains, and but little snow in the western Himalayas except perhaps in parts of Kumaon. Further, that the winter accumulations have apparently melted considerably and are at present generally below normal over the whole of the mountain zone bordering upper India with the possible exception of Kumaon.

8. *Summary and inferences.*

(1) The Arabian Sea branch of the monsoon was late in arrival on the west coast, and slow in penetrating inland: as a consequence the rains were not fully established until July. On the whole the Arabian Sea monsoon was more vigorous than that of the Bay of Bengal.

(2) The accumulations of snow melted quickly in June, and their retarding effect disappeared early in July when the Arabian Sea current became vigorous. Little fresh snowfall has since occurred, and the snowfall factor is not likely to exercise any prejudicial effect during the remainder of the monsoon season.

(3) Barometric pressure in the Indian Ocean and Australia during the period May to July differed little from the normal, and in South America it was in some excess in June and July: in both regions it was exceedingly steady, in this respect contrasting strongly with the pressure of last year.

An excess of pressure in South America is favourable to Indian rainfall and is usually associated in this respect with a low pressure over the Indian Ocean and Australia. This year however pressure in the Indian Ocean region, being nearly normal, does not show its usual relationship with the high pressure in South America, but still is not antagonistic to it in regard to Indian rainfall.

(4) An analysis by Dr. Walker's statistical method of the data now available indicates the probability of an excess of rainfall for the remaining period of the monsoon: it should, however, be borne in mind that this method in its present state of development is subject to the limitations indicated in paragraph 11 of Dr. Walker's forecast for August and September 1907.* On the whole the conditions now prevailing over the Indian monsoon region as far as they are known do not appear unfavourable for rainfall in August and September.

---

9. *Forecast.*

(1) For August and September the average rainfall over India is likely to be nearly normal, and it appears probable that the rains in north-west India will terminate at about their normal date.

(2) It appears probable that in the course of this month, owing to the change of direction of the travel of storms from the Bay of Bengal which corresponds with the advance of the season, rainfall conditions will improve in the east of the United Provinces and Bihar.

(3) There is thus no sufficient reason to modify materially the anticipations of total rainfall as given in the forecast issued in June, but it may be said that prospects for the monsoon as a whole have slightly improved.

SIMLA;
The 7th August 1908.

J. H. FIELD,
Officiating Director-General of Observatories.

R. W. CARLYLE,
Secretary to the Government of India.

---

* "It will not be forgotten that there must inevitably be many elements which cannot be considered, that the analysis merely gives an idea of the effects of the factors taken into account, ... The result of the analysis can thus only claim a very limited amount of reliability."

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 8th August 1908.

Burma.—The rainfall was general and mostly moderate. The recent rain was beneficial in the dry zone but more is still required in parts. In Lower Burma ploughing for wet rice is nearly completed and transplanting is well advanced and in Upper Burma ploughing and transplanting are in progress. In Upper Burma ploughing for late sesamum and *juar* continues and reaping of early sesamum has begun in places. The condition of standing crops is good on the whole though in parts of the dry zone cotton and sesamum crops are partially affected by drought. Fodder and water are insufficient in 2 districts. Cattle-disease is prevalent to a small extent in 7 districts. The price of unhusked rice is practically stationary.

Eastern Bengal and Assam.—There was moderate rain throughout the Province. In the Surma Valley the fall was fairly heavy. In all other parts a heavy downpour is wanted to flood rivers and fields. The prospects of winter rice and jute crops depend almost entirely on this as without it there is not enough water for transplanting rice or steeping jute. Prospects of summer rice and other autumn crops are generally good. Prospects of tea are good in the Assam Valley and the Duars and fair in the Surma Valley. Mosquito blight is prevalent in Cachar. Cattle-disease prevails in Backarganj, Noakhali, Goalpara, Kamrup, Darrang, Sibsagar and the Garo and Khasi Hills. Prices:—common rice has risen in ten stations and has fallen in twelve.

Bengal.—The rainfall during the week was heavy in Cuttack, Balasore, Angul and in parts of Saran; moderate in Shahabad and in the districts of Chota Nagpur and light in other districts. In Bihar it has been generally sufficient but more rain is urgently wanted here for transplantation of paddy, the progress of which is being retarded in several districts. The autumn crops and paddy seedlings in Patna, Gaya and Monghyr are also suffering from deficient rain. Sugarcane is generally doing well throughout the province. The condition of jute is fair except in Howrah, the 24-Parganas, Jessore and Khulna. Insect pests are doing damage to the newly transplanted paddy in Burdwan, Bankura, Midnapore, Hooghly, the 24-Parganas and Nadia. Some damage has also been done by insects to the *gundli* millet crop in Ranchi. The price of common rice has risen in Patna, Gaya and Muzaffarpur; has fallen in Bankura, Nadia, Jessore, Saran, the Sonthal Parganas, Sambalpur, Hazaribagh, Palamau and Manbhum; and has been stationary in the remaining districts. Stocks of food-grains are insufficient in Murshidabad, Nadia, Balasore and Palamau. There is no complaint regarding the supply of fodder and water. Cattle-disease is reported from Gaya, Muzaffarpur, Darbhanga, Monghyr, Sambalpur, Ranchi, Palamau and Manbhum. The number of persons on gratuitous relief was 32,564, of whom 15,796 were in Orissa. Test-works in Nadia, Jessore, Cuttack, Balasore, Angul, Puri, Hazaribagh and Ranchi were attended by 7,957 persons. The number of persons on relief works in Ranchi was 9,824.

The weekly report on the famine and scarcity is as follows:—Ranchi district—In the declared area, workers exclusive of dependants, 11,127; on gratuitous relief:—(*a*) dependants of workers 13; (*b*) in poor-houses or kitchens *nil* and (*c*) on village doles 5,519. Total on gratuitous relief 5,532; grand total on relief 16,659. There is practically no alteration in the situation. The damage done to the *gundli* crop is not so extensive as was feared. Prospects of other crops are excellent. Cholera is prevalent in several places but it is not spreading much. Prices:—5 to 6 seers per rupee.

United Provinces.—General rain has fallen during the week being heaviest in the hills, the north-western districts and Bundelkhand. The largest falls, in inches, were:—Bijnor 9; Saharanpur 8; Dehra Dun, Garhwal and Muzaffarpur 6 and Meerut 5¾. A break is required in some of the western districts and in Bundelkhand but in the Benares division and north Oudh more rain is urgently required for rice. Sowings of autumn crops continue in several districts and late rice is being transplanted wherever the rainfall has been sufficient. Weeding of autumn crops and ploughing of land for spring crops continue. In the hills early crops are in ear and harvesting of *cheena* has commenced in Garhwal. All standing crops promise well except rice. Sugarcane has been slightly injured by insects in Saharanpur and floods in the Ganges and Jumna khadars (lowlands) have caused some damage in six districts. Markets are well supplied. Prices remain very high having fallen in 5 and risen in 2 districts. The condition of agricultural stock is satisfactory. There is no scarcity of fodder or water.

The weekly report on the famine and scarcity is as follows:—The numbers on relief have decreased by 84,546 of whom about 20,000 are workers and 64,000 gratuitously relieved. Works still attract labour in Sitapur, Kheri and Bahraich and these districts contain over 54,000 of the 75,000 remaining workers. Gratuitous relief is being closed with valedictory doles in the Allahabad district and is decreasing in Bundelkhand. Relief on a considerable scale is now confined practically to Mirzapur and north Oudh. The condition of the people is satisfactory. Cholera still continues in several districts but is less virulent. There is some increase in fever and quinine continues to qe widely distributed free of cost in all distressed districts. There are 2,570 persons

on private works. The numbers on Government relief are :—on relief works 68,207; on aided works 6,746; dependants 21; on gratuitous relief 488,236; in poor-houses 2,148; total 565,358. The largest total figures are :—Bahraich 130,744; Kheri 93,359; Mirzapur, with Family Domains, 79,766; Gonda 62,896; Sitapur 42,002. Prices :—in the hills 5 to 7; Bundelkhand $9\frac{1}{4}$ to $10\frac{3}{16}$; Mirzapur 4 to $10\frac{1}{2}$; Kheri 9; Benares $9\frac{1}{2}$; elsewhere 10 to $12\frac{3}{4}$ seers per rupee.

Punjab.—The rainfall was good throughout the Province. Prices have shown a slight downward tendency. Wheat and barley are selling dearer than scarcity rates at Hissar, Ambala, Jullundur, Ludhiana, Ferozepore and Amritsar. Prices of other food-grains are generally at or above scarcity rates. Sowings of autumn crops are generally good to average. Insects are damaging maize and hemp in parts of Sialkot and sugarcane in Shahpur. Some damage has been done to crops by excessive rain and floods in Jhang, Multan and parts of Shahpur. Cattle are generally in good condition. Fodder is scarce in the Indus Valley and in Mianwali owing to heavy floods. Green grass is plentiful throughout the province. There are no complaints regarding the water-supply.

North-West Frontier Province.—Good rain beneficial to standing crops and autumn sowings has fallen throughout the Province. Harvesting of extra spring crops in Bannu and autumn sowings in Peshawar and Bannu still continue. The condition of standing crops both on irrigated and unirrigated areas is average everywhere and the outturn is expected to be up to the average. Fodder and water are sufficient. Irrigation from all the canals in the Province and from hill torrents in the Dera Ismail Khan district is satisfactory. All the rivers are in flood. The health of the people is good but cholera has broken out in certain villages of the Swabi and Charsadda tahsils and seasonable fever is prevalent in the Mardan tahsil. The condition of cattle is fair except in some villages in the Marwat tahsil of Bannu and the Nowshera Kalan in the Peshawar district. Prices are slightly rising in Bannu but are stationary elsewhere. Prices :—wheat $9\frac{1}{16}$ to 13; gram $9\frac{3}{16}$ to 13; maize $11\frac{1}{4}$ to 17; *bajra* 11 to $12\frac{3}{4}$ and barley $15\frac{11}{16}$ seers per rupee.

Jammu.—The rain during the week was heavy. Prices are stationary. Wheat sells from 9 to 14 and maize from 9 to 17 seers per rupee. The condition of standing crops is good. Fodder is sufficient, except in tahsil Kishtwar owing to slight rain. Autumn sowings are nearly over.

Kashmir.—The weather is bright with slight drizzles. Prices are almost unchanged. The standing crop is average.

Rajputana.—Almost general rainfall has continued throughout Rajputana. The maximum amount was in Sirohi 6·78 inches and the minimum in Tonk 78 cents. Standing crops have been damaged by excessive rain in Mewar, Alwar and Bharatpur and slightly in Kishangarh and Merwara. Agricultural operations are retarded from the same cause in many places and a break is now needed though the rain on the whole has made future prospects very satisfactory. The condition of cattle is good except that cattle-disease is reported in parts of Mewar and Merwara. Fodder is sufficient. Prices are generally falling. The special public works have been closed in Bharatpur and the numbers now employed in Karauli and Dholpur are small.

Central India.—The rain was general and a break is urgently needed in Gwalior. Sowing is in progress and weeding has been started in Baghelkhand. Weeding is in progress elsewhere. Lands are being prepared for spring crops in Indore, Gwalior and Bhopawar. Operations are impeded in Gwalior owing to incessant rain. Damage to standing crops is reported from parts of Gwalior and Bhopawar. Agricultural stock is fair to good. Cattle-disease is prevalent in parts of Indore, Bhopal, Bundelkhand and Bhopawar. Fodder is sufficient throughout. Prices are fluctuating in Ratlam and are high but steady elsewhere.

The weekly report on the famine and scarcity is as follows :—Relief has been closed in nearly all States in Bundelkhand. Prices :—Indore $9\frac{1}{2}$ to 10 and the Bhopawar Agency 8 to 12 seers per rupee. The numbers on relief are :—Rewa—on works 3,500; on gratuitous relief 1,500. In the rest of Baghelkhand—on works *nil*; on gratuitous relief 250. In Indore State—on works *nil*; on gratuitous relief 22,000. In the Bundelkhand Agency—on works 5; on gratuitous relief 245. In the Bhopawar Agency, Manpur—on works 9; on gratuitous relief 76. Figures for the Gwalior Residency area have not been received.

Central Provinces.—The weather continued cloudy and rainy. The heaviest falls (from 4 to $5\frac{1}{2}$ inches) were registered at Damoh, Mandla, Raipur and Bilaspur. Nimar, Chhindwara, Betul, Wardha, Akola, Amraoti, Buldana and Yeotmal received below 1 inch of rain. In the remaining districts the rainfall measured from $1\frac{1}{4}$ to $2\frac{1}{2}$ inches. Sowings of gram, *til* and *kutki* still continue in Jubbulpore, Mandla, Raipur and the Vindhyan districts. Weeding is in progress but a break is needed to facilitate operations in the northern districts. Transplantation and thinning operations continue in the rice districts. Fields are being prepared for winter crops in Nimar, Betul, Chhindwara and Yeotmal. Standing crops are generally in good condition but excessive moisture is likely to cause damage to cotton and *juar* crops on low lying lands in Nagpur, Chanda and Seoni; to *juar* and *til* in Saugor and Damoh and to rice and *til* in Jubbulpore. Fodder and water are sufficient. Cattle are in good condition. Prices :—wheat fell by $\frac{1}{4}$ to 1 seer per rupee in Mandla, Seoni, Narsinghpur, Betul and Nagpur and rose by $\frac{1}{4}$ seer in Drug. Gram became cheaper by $\frac{1}{2}$ seer in Narsinghpur and Nimar and dearer by $\frac{1}{2}$ seer in Raipur. Rice fell by $\frac{1}{2}$ and $\frac{1}{4}$ seer in Mandla and Drug respectively. *Juar* was sold cheaper by 1 seer in Nagpur.

Feudatory States.—General rain continued in all the States. Kawardha, Chhuikhadan, Raj-Nandgaon, Kanker, Sarangarh, Jashpur and Korea received from 2 to 3 inches and the remaining States from 4 to 5 inches. Sowings of autumn crops are almost completed. Weeding, transplantation and thinning are in progress. Crops are reported to be doing well except in Kawardha where cotton, *til* and *kodon* on heavy soils have suffered slightly from continuous rainfall. Fodder and water are sufficient. Wheat rose by ½ to 1 seer per rupee in Sarangarh, Sirguja and Korea and gram by ½ seer in Sirguja. Rice fell by ¼ to 1 seer in Raj-Nandgaon, Sarangarh and Kawardha and rose by ½ seer in Sirguja. *Kodon* was sold dearer by ¼ seer in Kawardha and Raj-Nandgaon.

The weekly report on the famine and scarcity is as follows:—The rainfall was general and continuous throughout the Province and in some districts a break is much needed. There are signs of abatement in intensity of distress and measures are being adopted for the gradual reduction of village relief in the districts of the Jubbulpore division. Standing crops are generally in good condition. Slight damage from caterpillars is reported in the rice tracts in Seoni. Prespects are favourable. The numbers on village works in Damoh have fallen. In Mandla the opening of village works has been sanctioned to provide employment for persons on the list near their homes. The numbers on contract works show an increase in some districts, and those employed on the Nagpur Itarsi Railway in Betul still continue to rise. The number on village gratuitous relief has expanded and relief to weavers in Nagpur continues to increase. Fodder and water are ample. The condition of cattle is fair. Private charity is active. Prices are steady or slightly easier. The public health is good. The numbers on relief are:—on relief works 1,196; weavers 14,948; on gratuitous relief 30,982; total 47,126.

Bombay.—Good rain fell during the week in parts of Thar and Parkar, Gujarat, the Konkan, Khandesh, Nasik, Poona, Satara, Belgaum and Gujarat Native States and slight rain in parts of Karachi, Sukkur, Larkana, Hyderabad, the Upper Sind Frontier, Ahmednagar, Sholapur, Bijapur and Dharwar. The rain is insufficient in the eastern portions of the Deccan and the Karnatak and sufficient elsewhere. There has been continuous rain retarding autumn sowings in parts of Broach, Cutch and Palanpur. Sowing has been retarded in parts of Poona and Bijapur for want of sufficient rain and continues elsewhere. Germinated seedlings are slightly damaged by rats in parts of Karachi and by insects in parts of Bijapur and are suffering on account of floods or excessive rain in parts of Karachi, Hyderabad, the Panch Mahals, Surat, Kanara, Satara, Belgaum, Mahi Kantha, Baroda, Cutch and Palanpur and from want of moisture in parts of Bijapur. Seedlings are in good condition elsewhere. Transplantation is progressing in parts of Larkana, the Upper Sind Frontier, Gujarat, the Konkan, Nasik, Poona and Rewa Kantha. The supply of fodder is adequate except in parts of Nasik, Ahmednagar, Poona and Bijapur. Agricultural stock is generally in good condition and sufficient except in parts of Karachi, the Deccan and Cutch. The supply of drinking water is sufficient except in parts of Ahmednagar, Poona, Sholapur and Bijapur. Water for irrigation is insufficient in parts of the Upper Sind Frontier, Ahmednagar, Poona, Sholapur and Bijapur. Prices of food grains have risen slightly in the Deccan and are almost stationary elsewhere. The quantity purchasable per rupee is in Sind 32 to 45 per cent; in Gujarat 35 to 76 per cent; in the Konkan 29 to 35 per cent; in the Deccan 36 to 50 per cent and in the Karnatak 29 to 50 per cent less than the normal. Stocks of grain are generally adequate. Labourers get sufficient field employment and wages are normal. The cultivating and labouring classes are in fair condition. The daily average numbers on gratuitous relief are:—Panch Mahals 830; West Khandesh 1,354; Nasik 1,585; Ahmednagar 1,619; Poona 159; Sholapur 1,489; Bijapur 725 and Jath 82.

Hyderabad.—The rainfall during the week was 2 inches 92 cents. The autumn crop is generally in fair condition. Sowings are limited in parts of the Raichur and Usmanabad districts. The crop is being weeded. Sowings continue in parts. Early rice sowings are in progress in parts. Lands are under preparation for spring crops. There is water scarcity in eleven talukas and fodder scarcity in twenty. Cattle-disease prevails in thirteen talukas. Prices:—wheat 5½; coarse rice 6 and *juar* 12 seers per rupee. White *juar* is selling in Hyderabad City at 11 seers per rupee. Yellow *juar* is not available in the market. The highest price in districts is 8¾ seers in the Pargi and Paloncha talukas.

Mysore.—The rainfall was good in Hassan, Kadur and Shimoga and slight elsewhere. Prices of food-grains are steady. Standing crops are in good condition. Prospects of the season are generally good but more rain is needed in parts of Kolar, Tumkur and Mysore. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 13 inches. Transplanting of rice continues. Prices of food-grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was abnormally heavy in South Canara and Malabar; heavy in the Nilgiris and the Vizagapatam Agency; good in Madras, Godavari, Kistna, Chingleput, Ganjam, Kurnool, the Vizagapatam Littoral, Guntur, North Arcot and Nellore; *nil* in Trichinopoly and light to fair elsewhere. Irrigation supplies are insufficient in parts of all districts

except Malabar, South Canara and the Nilgiris. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some have been damaged by insects in parts of Bellary; by floods in parts of Godavari and South Canara and some in parts of Salem, Coimbatore, Trichinopoly, Madura and Tinnevelly are withering from want of rain. Harvests continue, except in Godavari, Kistna, Guntur, Bellary, Nellore, Tanjore, Malabar and South Canara, with outturn generally fair. Pasture is sufficient except in parts of Vizagapatam, Guntur, Bellary, Cuddapah, Nellore, South Arcot and the central and southern districts. Fodder is scanty in parts of the Circars, Bellary, Anantapur and Trichinopoly. The condition of cattle is generally good. The price of rice is stationary in eleven districts; has fallen in one and has risen in eleven. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eleven districts; has fallen in three and has risen in seven. *Cholam* is stationary in five districts; has fallen in two and has risen in seven. *Cumbu* is stationary in five districts; has fallen in five and has risen in five. The public health is generally good but cholera is prevalent in several districts, Malabar, Kurnool and Anantapur being most affected. Prospects are generally fair. The condition of the labouring classes is good and employment is procurable. Grain stocks are generally sufficient. The daily average number relieved on test-works in the Bellary taluka is 737.

The weekly report on the famine and scarcity is as follows:—The distress in Ganjam is decreasing owing to the rains. Employment is available for the affected people. There is not much wandering and no general emaciation. The condition of the people on relief is generally good. Relief measures are sufficient. The public health is generally good. State loans are being granted for the construction of wells and purchase of fodder or seed grain. Seed grain purchased from famine charitable relief funds are being disbursed free to distressed zemindari ryots of the Ganjam taluka. Price of food-grains 8·5 seers per rupee. The daily average number on gratuitous relief is: 247. Khond village works have been closed.

Statement showing the number of persons in receipt of relief:

R. W. CARLYLE,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

FAMINE.

Statement showing the number of persons on relief works and in receipt of gratuitous relief in the Districts and Native States affected by famine or scarcity in India—(District details).

NOTE.—The figures are compiled from returns obtained from Local Governments and Political Officers, and give the corrected details of totals reported in the telegraphic famine reports published weekly in the Supplement to the *Gazette of India*.

Non-labouring children and other dependants of relief workers are classed under relief works when distinguished in the local returns; persons gratuitously relieved in poor-houses or at their houses. Weavers relieved in their own trade are shown under "village doles or other relief."

(b) Opened from 1st July 1908.
(c) Opened from 4th February 1908.

M. S. O'CONNOR,
for Secretary, Railway Board.

Simla, the 13th August 1908.

Printed and published for the GOVERNMENT OF INDIA *at the* GOVERNMENT CENTRAL PRINTING OFFICE, *Simla.*

SUPPLEMENT TO

The Gazette of India.

No. 34.} CALCUTTA, SATURDAY, AUGUST 22, 1908.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The* SUPPLEMENT *and* PART VI *of the* GAZETTE *can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.*

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

GOVERNMENT OF INDIA

H. A. STUART,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 20th August 1908, based on the Indian Daily Weather Reports of the period.

No depressions of any importance formed over the Bay except on the last two days of the week when a shallow depression developed in the northwest angle of the Bay and gave heavy rain in parts of Orissa. Monsoon rainfall again extended into the North-West Frontier Province during the week and penetrated into Kashmir, over a large part of which rain fell on several days and was at times heavy, while snow fell on the hills around Leh. The monsoon also gave fairly heavy rain over the rest of northwest India, but on the 20th a break occurred in the Punjab and the extreme north and skies were almost clear in these areas. In Bihar very little rain fell and though rain occurred in all parts of the east of the United Provinces it was considerably below the normal. During the first half of the week rainfall was very widespread and in places moderately heavy over the west of the United Provinces and the central parts of the country, but during the second half the monsoon currents were decidedly weaker in these areas, especially the latter where there was a partial break.

Burma.—Rainfall was nearly general throughout the week in Lower Burma and more or less local in Upper Burma. Skies were moderately to heavily clouded and temperature was nearly normal.

Northeast India, including Orissa.—On most days rainfall was light and scattered in character, but all parts of the division received some rain during the week though very little fell in Bihar. Skies were lightly to heavily clouded. Temperature was approximately normal except in Bihar where in the day time it was higher than usual.

The United Provinces, Central India and the Central Provinces.—Rain fell in all parts of the division and occurred almost daily in the east of Central India and the adjacent districts: there was however very little rain in the northeast of the United Provinces. Cloud was light to moderate in amount in the United Provinces and moderate to heavy elsewhere. Temperature was normal or in defect.

Northwest India.—Only a few falls of rain were reported from Sind and the adjoining districts, but in the remainder of the division rainfall was well distributed. Skies were moderately to heavily clouded except in the Indus valley, and temperature was on most days normal or in defect, the deficiency occurring chiefly in the Punjab and Rajputana.

The Peninsula.—Rainfall has decreased and occurred chiefly on the west coast, though light rain also fell in parts of the Bombay Deccan, Hyderabad and on the north Madras coast. Cloud diminished towards the end of the week and was only light over the greater part of the peninsula. Temperature differed by only small amounts from the normal.

The following summarises the chief rainfall amounts of the week as reported at 8 hrs. each day:—

August 14th. Chaibassa 1·50″, Cawnpore 2·75″, Jhansi 2·19″, Agra 1·83″, Dehra Dun 2·28″, Mount Abu 6·99″ and Deesa 1·51″.

" 15th. Akyab 3·33″, Sambalpur 3·47″, Hoshangabad 2·56″, Rawalpindi 2·50″ and Mount Abu 2·47″.

August 16th. Indore 1·67″, Pachmarhi 1·92″ and Mount Abu 2·37″.

" 17th. Sambalpur 1·71″, Mount Abu 11·30″, Rawalpindi 2·51″ and Murree 2·30″.

" 18th. Silchar 2·53″, Pendra 1·44″, Jubbulpore 3·48″, Seoni 2·00″, Ludhiana 2·16″, Khushab 2·20″, Gulmarg 2·00″, Hyderabad (Sind) 1·75″, Mount Abu 2·16″ and Ahmedabad 1·88″.

" 19th. Silchar 3·11″, Gauhati 3·15″, Peshawar 1·60″ and Gopalpur 1·83″.

" 20th. Akyab 3·27″, Bhamo 3·23″, Cuttack 5·20″, Allahabad 1·53″, Bareilly 1·32″ and Nowgong 2·72″.

The rainfall of the week was heavier than usual over almost the whole of northwest India, in the east of Central India and in Orissa, and it was practically normal in the west of the United Provinces, of Central India and of the Central Provinces, but in the rest of the country it was generally in defect. At the close of the previous week rainfall for the whole monsoon period was normal in Eastern Bengal and Gujarat: it is now in defect in the former division and in excess in the latter. These are the only important changes introduced by last week's rainfall in the seasonal departures from normal.

DIVISION.	Rainfall data for week ending on 20th August 1908.			Rainfall data from 1st May 1908 to 20th August 1908.				
	Average actual rainfall in inches.	Average normal rainfall in inches.	Excess or defect in inches.	Average actual rainfall of season to date in inches.	Average normal rainfall in inches. J. PATTERSON,
for Offg. Director-General of Observatories.

R. W. CARLYLE,
Secretary to the Government of India.

SIMLA,
The 20th August 1908.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 15th August 1908.

Burma.—The rainfall was general and mostly sufficient. More rain is yet required in parts of the dry zone. Transplanting of winter rice is progressing favourably. In Upper Burma ploughing for late sesamum and *juar* continues and reaping of early sesamum is in progress. Portions of the sesamum crop have failed in two districts for want of rain. The condition of standing crops is satisfactory on the whole. Fodder and water are insufficient in parts of three districts and cattle-disease is prevalent in parts of ten. The price of unhusked rice has risen slightly in three districts.

Eastern Bengal and Assam.—There was heavy rainfall in the Surma Valley, the Lushai Hills and in a few isolated stations; elsewhere the falls were much lighter than usual during August. Harvesting of summer rice continues but very little progress is being made with transplanting winter rice and harvesting jute. Prospects of transplanted winter rice and jute are becoming very critical owing to lowness of rivers and want of general heavy downpour. Prospects of tea are fair in the Surma Valley and Kamrup and good in the remainder of the Assam Valley and the Duars. Mosquito blight is becoming worse in Cachar. Cattle-disease is prevalent in Backarganj, Noakhali, Malda, Darrang, Nowgong and Sibsagar. The price of common rice has risen in thirteen but has fallen in seventeen stations.

Bengal.—The rainfall was heavy in Bankura, Cuttack, Balasore and Sambalpur; moderate in Midnapore, the 24-Parganas, Puri, Manbhum and in parts of Shahabad, Bhagalpur and the Sonthal Parganas and light in the rest of the Province. More rain is wanted in Bihar and in parts of Nadia, Jessore and Khulna. Transplantation of winter rice is being retarded in Bihar for want of rain. Paddy seedlings and autumn crops are also suffering in Patna, Gaya, Muzaffarpur, Darbhanga, Monghyr and Purnea. Damage is being done by insect pests in Burdwan, Bankura, Midnapore, Hooghly, the 24-Parganas, Nadia and Murshidabad. Floods are reported from Balasore. Sugarcane is doing well The condition of jute is fair except in Howrah, the 24-Parganas, Jessore, Khulna, Darjeeling and parts of Bhagalpore. The price of common rice has risen in Puri, Ranchi and Cooch Bihar and has fallen in Burdwan, Nadia, Gaya, the Sonthal Parganas, Sambalpur and Manbhum. It has been stationary in the remaining districts. Stocks of food-grains are insufficient in Nadia, Balasore and Palamau. The supply of fodder and water is sufficient. Cattle-disease is prevalent in Gaya, Saran, Purnea, the Sonthal Parganas, Sambalpur, Hazaribagh, Palamau and Manbhum. The number of persons gratuitously relieved was 33,572 of whom 15,725 were in Orissa. The test-works in Nadia, Jessore, Cuttack, Balasore, Angul, Puri, Hazaribagh and Ranchi were attended by 8,044 persons. The number of persons on famine relief works in Ranchi was 10,074.

The weekly report on the famine and scarcity is as follows:—*Ranchi district*—In the declared area, workers exclusive of dependants, 9,820; on gratuitous relief (*a*) dependants of workers 33; (*b*) in poor-houses or kitchens *nil* and (*c*) on village doles 5,622. Total on gratuitous relief 5,655; grand total on relief is 15,475. There is no change in the condition of the affected tracts. Partial damage is reported to the *gundli* crop. Prospects of other crops are excellent. Cholera is prevalent in several places.

United Provinces.—General rain has fallen averaging over 3 inches in 19 districts. The largest falls were:—Mirzapur 6½; Rae Bareli 6; Allahabad and Lucknow 5; Dehra Dun, Budaun, Benares, Jaunpur and Banda 4 inches. The rainfall was least heavy in submontane Oudh where Bahraich received less than ½ inch. Sowing of late autumn crops and transplantation of *jarhan* rice are in progress. Fields are being ploughed for sugarcane and *rasi*. Sufficient rain has been received throughout the central division except in Ballia. More rain is needed for rice in northern and submontane Oudh, in Basti and part of Azamgarh. Rain is urgently required in Basti, Bahraich and Bara Banki where in certain parts standing crops are suffering from want of it. Throughout the Meerut and Agra divisions and particularly in Muttra injury has been done to crops in low-lying areas by heavy rain and floods and in several districts agricultural operations have been retarded. A break is also required in most of Bundelkhand. *Sawan* and *kakun* are ripening and the former is being harvested in a few districts. Prices continue very high and are generally stationary. They have fallen in 8 and have risen in 2 districts. The condition of agricultural stock is satisfactory. There is no scarcity of fodder.

The weekly report on the famine and scarcity is as follows:—The numbers on relief have decreased by 50,549, of whom over 9,000 are workers and 41,000 gratuitously relieved. All Government relief works have been closed except in Kheri, Bahraich,

Sitapur, Mirzapur, Jaunpur and the hills. Aided works on a small scale continue in a few other districts. *Takavi* for field work is being given in Banda. Gratuitous relief has increased in Kheri and Gonda but is being reduced in most other districts. It was closed during the week with a final dole in Muttra, Etawah, Cawnpore, Allahabad, Garhwal and Fatehpur except in one tahsil. The condition of the people is satisfactory, but cholera continues in several districts and fever has increased. Quinine is being freely distributed. There are 2,821 workers on private works. The numbers on Government relief are :—On relief works 57,337 ; on aided works 8,362 ; dependants 235 ; on gratuitous relief 447,279 ; in poor-houses 1,784 ; total 514,997. The largest total figures are :—Bahraich 103,014 ; Kheri 100,491 ; Gonda 80,515 ; Mirzapur, with Family Domains, 58,171 ; Sitapur 39,687. Prices :—In the hills $5\frac{1}{2}$ to 7 ; Bundelkhand $9\frac{7}{16}$ to $10\frac{11}{16}$; Mirzapur 4 to 10 ; Kheri $8\frac{3}{4}$; elsewhere $10\frac{3}{4}$ to 13 seers per rupee.

Punjab.—Good rain fell in all districts except Gujranwala, Lyallpur and Jhang where light rain was received. Prices are generally unsettled. Wheat is rising in Gurgaon, Delhi, Rawalpindi, Lyallpur and Jhang and falling in Ferozepore, Amritsar and Mianwali. Wheat is dearer than scarcity rates in Hissar, Ambala, Jullundur, Ludhiana, Amritsar and Jhang. Prices of other food-grains are generally at or above scarcity rates. Sowings of autumn crops continue. Ploughing for the next spring crops has commenced in Jullundur and Shahpur. The condition and prospects of standing autumn crops are generally good to average. Crops on low-lying lands have been slightly damaged by excessive rains in parts of Rohtak, Gurgaon, Amritsar, Shahpur, Lyallpur and Multan. Cattle are generally in good condition. Green grass is plentiful throughout the Province. There are no complaints regarding the water-supply.

North-West Frontier Province.—Good rain averaging from 11 cents to 2·62 inches fell all over the Province greatly benefiting autumn sowings and the preparation of lands for spring crops. The condition of standing crops on irrigated and unirrigated areas is average and the outturn is expected to be the same. Fodder and water are sufficient. Irrigation from all the canals in the Province and from hill torrents in the Dera Ismail Khan district continues. Floods in the rivers are diminishing. The public health is good. The Peshawar district is free from cholera but seasonal fever is still prevalent in the Mardan tahsil. The condition of cattle is good except in the Nowshera and Marwat tahsil. Prices of food-grains are falling slightly. Prices are :—wheat $9\frac{3}{16}$ to 13 ; gram $9\frac{15}{16}$ to 13 ; maize $11\frac{11}{16}$ to 17 ; and *bajra* 11 to $13\frac{3}{4}$ seers per rupee.

Jammu.—Heavy rain fell during the week. Prices are stationary. Wheat is selling from 8 to 14 and maize from 8 to 18 seers per rupee. The condition of standing crops is good. Fodder is sufficient. Autumn sowings are over.

Kashmir.—The weather is bright with slight drizzles. Prices are almost unchanged. The condition of crops is average.

Rajputana.—There has again been general rainfall in Rajputana, Mount Abu recorded $21\frac{1}{2}$ inches, Sojat in Marwar nearly 13 and Jhalrapatan 10·7 inches ; while the minimum fall was 1·23 inches at Bikaner. It is reported from many places that the continuous rain has caused damage to standing crops and retarded operations for autumn crops. Mewar reports condition of crops unsatisfactory but on the whole future prospects in Rajputana are very fair. The condition of cattle is generally good. Fodder is sufficient. Prices are still high, especially in the eastern States and have risen slightly in Alwar and Kishangarh but on the whole they are distinctly tending downwards. Special public works have now been closed in Karauli and Dholpur.

Central India.—The rainfall during the week was general and a break is urgently needed in Gwalior, Indore and Bhopal. Sowing is in progress in Baghelkhand. Weeding has been started in Baghelkhand and is in progress elsewhere. Land is being prepared for spring crops in Gwalior and Bhopawar. Operations have been suspended in Gwalior owing to incessant rainfall. Damage to crops is reported from Gwalior, Malwa and Bhopawar owing to heavy rain. Agricultural stock is fair to good. Cattle-disease prevails in parts of Indore, Bhopal, Bundelkhand and Bhopawar. Prices have fallen slightly in Indore and Piploda ; have risen in Rutlam and are high but steady elsewhere.

The weekly report on the famine and scarcity is as follows :—The situation is improving. The numbers on relief are dropping. Prices :—Indore 10 ; Bundelkhand 9 to $12\frac{1}{4}$ and the Bhopawar Agency 9 to 13 seers per rupee. The numbers on relief are :—Rewa—on works 1,500 ; on gratuitous relief 1,000 ; total 2,500. In Indore State—on works *nil* ; on gratuitous relief 12,000. In the Bundelkhand Agency—on works *nil* ; on gratuitous relief 250. In the Bhopawar Agency, Manpur—on works 6 ; on gratuitous relief 65.

Central Provinces.—The weather continued cloudy and was warm. The rainfall in Narsinghpur, Mandla, Drug and Balaghat measured from $7\frac{1}{2}$ to 13 inches. In Nimar, Betul, Nagpur, Wardha and the districts of Berar it was below $1\frac{1}{2}$ inches ; elsewhere from 2 to 6 inches were received. Sowings of autumn crops still continue in Betul, Chhindwara and

most of the northern districts but rain delayed sowings of *til* and *kutki* in these districts. Weeding is in progress throughout the Provinces but is considerably impeded by rain. Transplantation and thinning continue in rice districts as also preparation of land for winter crops in a few districts. Excessive moisture caused damage to a small extent to *juar* and *til* on heavy soils in Saugor; to *juar* and *til* in Damoh and Jubbulpore; to cotton in Bhandara and to cotton and *juar* in Chanda and Buldana. Fodder and water are sufficient. Cattle are in good condition. Prices :—Wheat fell by ¼ to ½ seer per rupee in Drug, Raipur, Nimar and Betul. Gram rose by ½ to 1 seer in Nimar and Saugor and fell to the same extent in Raipur, Chhindwara and Betul. Rice became dearer by ½ seer in Mandla and cheaper by 1 to 1½ seers in Saugor, Betul, Wardha, Nagpur, Raipur and Amraoti. *Juar* was sold cheaper by ¼ seer to 1½ seers in Nimar, Betul and in Berar, except Yeotmal.

Feudatory States.—Good rain fell in all the States during the week. Sirguja registered 9 inches; Kawardha, Chhuikhadan, Raj-Nandgaon and Raigarh 6 inches; and other States from 3 to 5 inches. Sowings of *til*, *kutki* and other minor crops still continue in Raj-Nandgaon and Raigarh and of rice in Korea. Weeding, transplantation and thinning are in progress. Damage has been caused to cotton and *juar* in Korea and to *kodon*, cotton and *til* on black soils in Kawardha by continuous rain. Fodder and water are ample. Wheat fell by 1 seer per rupee in Bastar and rice rose by 1 seer in Raigarh. Prices otherwise continued steady.

The weekly report on the famine and scarcity is as follows :—During the week the monsoon has continued to give general rain and especially in the northern districts a break is needed. Sowing and weeding operations have been somewhat hampered but prospects of standing crops are on the whole good. The numbers on village work which are still open in Damoh are steady. The numbers employed on contract works and on the Nagpur Itarsi Railway in Betul have dropped. The numbers on village gratuitous relief show a fall. The decrease is due to abatement in the extent of distress and gradual reduction of village relief in the districts of the Jubbulpore Division. Weaver relief has been started in Chanda but the number on this form of relief is declining in Nagpur and Nimar. Fodder and water are ample. The condition of cattle is good. Prices are steady or slightly easier in some districts. The public health is good. Private charity is active. Numbers on relief works 1,101; weavers 14,900; on gratuitous relief 30,890; total 46,891.

Bombay.—The rain during the week was good in parts of Gujarat, the Konkan, Nasik and Gujarat and the Deccan Native States; moderate in parts of East Khandesh, Poona, Satara and Belgaum and slight in parts of Karachi, Sukkur, Larkana, Hyderabad, the Upper Sind Frontier, Thar and Parkar, West Khandesh, Ahmednagar, Sholapur, Bijapur and Dharwar. The rain was insufficient in the eastern portions of the Deccan and the Karnatak and sufficient elsewhere. Continuous rain retarding autumn sowings fell in parts of the Panch Mahals, Kaira, Broach and Palanpur. Sowings are retarded n parts of Poona and Bijapur for want of sufficient rain and generally continue elsewhere. Germinated seedlings have been slightly damaged by rats in parts of Karachi and by caterpillars and insects in parts of the Panch Mahals and Bijapur and are suffering on account of floods or excessive rain in parts of Karachi, Sukkur, Hyderabad, Ahmedabad, the Panch Mahals, Surat, Khandesh, Satara and the Gujarat Native States and from want of moisture in parts of Bijapur. Seedlings are in good condition elsewhere. Transplantation is progressing in parts of Larkana, the Upper Sind Frontier, Gujarat, the Konkan, Nasik, Poona Baroda and Rewa Kantha. The supply of fodder is adequate except in parts of Nasik, Ahmednagar, Poona and Bijapur. Agricultural stock is generally in good condition and sufficient except in parts of Karachi, the Deccan and Cutch. The supply of water for drinking as well as for irrigation is sufficient except in parts of Ahmednagar, Poona, Sholapur and Bijapur. Prices of food-grains have risen slightly in Sind and are almost stationary elsewhere. The quantity purchasable per rupee is in Sind 32 to 43 per cent; in Gujarat 33 to 76 per cent; in the Konkan 27 to 35 per cent., in the Deccan, 36 to 50 per cent and in the Karnatak 32 to 50 per cent less than the normal. Stocks of grain are generally adequate. Labourers get sufficient field employment and wages are normal. The cultivating and labouring classes are in fair condition. The daily average numbers on gratuitous relief are :—Panch Mahals 824; West Khandesh 2,049; Nasik 2,020; Ahmednagar 1,977; Poona 160; Sholapur 1,489; Bijapur 727 and Jath 87.

Hyderabad.—The rainfall during the week was 1 inch 50 cents. If rain does not fall soon a failure of the autumn crop over considerable area is anticipated in the Raichur district. Autumn crops are generally in fair to good condition. Weeding continues. Sowings have again been stopped in parts of Raichur where young plants are withering for want of rain. Early rice sowings are in progress. Lands are being prepared for spring crops. There is water scarcity in eight talukas and fodder scarcity in fifteen. Cattle-disease prevails in thirteen talukas. Prices :—wheat 5¼; coarse rice 5¾ and *juar* 12 seers per rupee. White *juar* is selling in Hyderabad City at 11 seers per rupee. Yellow *juar* is not available in the market. The highest price in districts is 8¾ seers in the Pargi and Paloncha talukas.

Mysore.—The rainfall was good in Bangalore, Kadur and Shimoga and slight elsewhere. Prices of food-grains are generally steady. Standing crops are in good condition but more rain is needed in parts of Bangalore, Kolar, Tumkur, Mysore and Hassan. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 4 inches 4 cents. Transplanting of rice continues. Prices of food-grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was very heavy in the Vizagapatam Agency; heavy in South Canara; good in Ganjam, Godavari, Kistna, Vizagapatam littoral, Malabar, the Nilgiris, South Arcot and Tanjore; *nil* in Tinnevelly and light to fair elsewhere. Irrigation supplies are insufficient in parts of all districts except Guntur, Malabar, South Canara and the Nilgiris. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Kistna and South Canara have been damaged by floods; some in parts of Bellary have been attacked by insects and some in parts of Anantapur, Cuddapah, North Arcot, Salem, Coimbatore, Trichinopoly, Madura and Tinnevelly are withering or require more rain. Harvests continue, except in Godavari, Kistna, Guntur, Nellore, Tanjore and South Canara, with outturn poor to normal. Pasture is insufficient except in Ganjam, Godavari, Kistna, Chingleput, Tanjore, Malabar, South Canara and the Nilgiris. Fodder is scanty in parts of the Circars, Bellary, Anantapur and Trichinopoly. The condition of cattle is generally good. The price of rice is stationary in eighteen districts; has fallen in three and has risen in two. The prices of millets have fluctuated as follows:—*Ragi* is stationary in twelve districts; has fallen in five and has risen in four. *Cholam* is stationary in twelve districts; has fallen in four and has risen in six. *Cumbu* is stationary in five districts; has fallen in five and has risen in five. The public health is generally good but cholera is prevalent in several districts, Malabar, Kurnool, Cuddapah and Anantapur being most affected. Prospects are fair but more rain is urgently required in several districts. The condition of the labouring classes is good and employment is procurable. Grain stocks are generally sufficient. The daily average number relieved on test-works in the Bellary taluka was 973.

The weekly report on the famine and scarcity is as follows:—The distress in Ganjam is decreasing owing to the rains. The daily average number on gratuitous relief is 245. The Rambha poor house was closed on the 15th August.

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

FAMINE.

Statement showing the number of persons on relief works and in receipt of gratuitous relief in the Districts and Native States affected by famine or scarcity in India—(District details).

NOTE.—The figures are compiled from returns obtained from Local Governments and Political Officers, and give the corrected details of the as reported in the telegraphic famine reports published weekly in the Supplement to the *Gazette of India*.

Non-labouring children and other dependants of relief workers are classed under relief works when distinguished in the local returns from ons gratuitously relieved in poor-houses or at their houses. Weavers relieved in their own trade are shown under "village doles or relief."

(a) From 15th July 1907.
(b) Opened from 1st July 1908.

(c) Opened from 4th February 1908.

M. S. O'CONNOR,
for Secretary, Railway Board.

Simla, the 20th August 1908.

Printed and published for the GOVERNMENT OF INDIA *at the* GOVERNMENT CENTRAL PRINTING OFFICE, *Simla.*

SUPPLEMENT TO

The Gazette of India.

No. 35.] CALCUTTA, SATURDAY, AUGUST 29, 1908.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The* SUPPLEMENT *and* PART VI *of the* GAZETTE *can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.*

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*
